Project applications that do not meet the criterion of administrative compliance no.1, no.2 and no.5 will be rejected without the possibility of submitting missing documents, information or to eliminate deficiencies of the application.

3. CONTENT RELATED CRITERIA

No.	Criterion	Criterion description	Min.- Max. score	Achieved Score	Comments
1.	RELEVANCE (max 10 points)				
1.1	Compliance of the project with the defined output, outcome, the goal of the program and the overall goals of the EEA Grants 2014-2021	<p><u>Programme's outcome:</u> Increased competitiveness of Slovak enterprises within the focus areas:</p> <ul style="list-style-type: none"> • Green Industry Innovation • Welfare technology and Ambient Assisted Living technologies <p><u>Programme's outputs:</u> Enterprises supported to:</p> <ol style="list-style-type: none"> 1. Develop innovative green technologies, processes, solutions, products or services, 2. Green their business operations, 3. Innovate welfare and ambient assisted living technologies, solutions and processes. <p><u>Overall Programme objectives:</u> reduction of economic and social disparities in the European Economic Area (EEA) and strengthening bilateral relations between Slovakia and the Donor states</p>	0 - 5		

Annex 2 - Call for proposals BIN 02 - Selection Criteria (including evaluation sheet)

1.2	Reflection of the cross-cutting issues in the project proposal	The project took into account relevant cross-cutting issues: gender equality, Roma inclusion and empowerment, social inclusion of vulnerable groups other than Roma,, anti-discrimination, transparency and anti-corruption. The implementation of the project will positively contribute to one or more cross-cutting issues mentioned above.	0 - 5		
2.	EFFECTIVENESS (max. 30 points)				
2.1	The planned activities are directly linked to the output, outcome and objective of the Programme	Project activities are logically connected with the defined output and outcome of the Programme and their implementation will contribute to the overall objective of the Programme. The project has a clear, logical structure.	0 - 8		
2.2	Achievability of target values of the project indicators	There is a high assumption that the applicant will reach the target values of the indicators through the implementation of project activities. The indicators are chosen appropriately with regard to the focus of the project and the main area of support, the proposed target values of the indicators are realistic (they are not overestimated or underestimated).	0 - 5		
2.3	Originality and innovativeness of the project at the company, industry, national or international level	Quality of the project and proposed solutions, perspective of new, unique solutions, modern approach, high added value of the results in long term perspective.	0 - 5		
2.4	The contribution of the project in terms of the target group	The applicant has clearly identified the relevant main target group (or sub-target group) and stated what benefits (direct or indirect) the implementation of the project will bring.	0 - 2		
Criteria for prioritized projects					

Annex 2 - Call for proposals BIN 02 - Selection Criteria (including evaluation sheet)

2.5	Project is implemented in a less developed area ⁶	If the implementation of the project is located in a less developed area, the evaluator awards 2 points. If not, the evaluator awards 0 points.	0 / 2		
2.6	A young entrepreneur is involved in the project implementation ⁷	If a young entrepreneur is involved in the implementation of the project, the evaluator awards 1 point. If not, the evaluator awards 0 points.	0 / 2		
2.7	A female entrepreneur is involved in the project implementation ⁸ .	If a female entrepreneur is involved in the implementation of the project, the evaluator will award 1 point. If not, the evaluator will award 0 points.	0 / 2		
2.8	Bilateral partnership	At least one partner from the Donor states, i.e. Iceland, Lichtenstein or Norway, is actively involved in the project implementation. The partner participates in the implementation of activities and makes significant contribution to achieving the goal of the project. If at least one partner from the Donor states is involved in the project implementation, the evaluator awards 2 points. If not, the evaluator awards 0 points.	0 / 2		
2.9.	Applicant is an SME ⁹	If applicant is an SME, the evaluator will award 2 points. If not, the evaluator will award 0 points.	0 / 2		
3.	EFFICIENCY (max 40 points)				

⁶ The geographical location of the project is in less developed regions in the Slovak Republic, where GDP per capita is lower than 75% of the EU average (NUTS 2 region), i.e. all regions in Slovakia except the Bratislava region.

⁷ Young entrepreneur – an applicant whose statutory representative, owner or majority co-owner (shareholder or partner with a share in the registered capital of the applicant exceeding 50%) is a natural person who is less than 29 years old on the date of submission of the project

⁸ Woman entrepreneur – an applicant whose statutory representative, owner or majority co-owner (shareholder or partner with a share in the registered capital of the applicant exceeding 50%) is a woman

⁹ A micro, small or medium-sized enterprise as defined in Annex I to Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market pursuant to Articles 107 and 108 of the Treaty <https://eur-lex.europa.eu/legal-content/SK/TXT/?uri=CELEX%3A32014R0651>

Annex 2 - Call for proposals BIN 02 - Selection Criteria (including evaluation sheet)

3.1	Feasibility of the planned activities	The applicant is able to successfully implement the planned activities within the set timeline, planned personnel, material and financial resources.	0 - 7		
3.2	Capacities of the applicant	The applicant has sufficient material and personnel (taking into account the quantity and quality) resources to ensure the implementation of project activities and achieve the defined outputs.	0 - 3		
3.3	Budget adequacy and efficiency	The project budget is prepared in sufficient detail, is realistic (not overestimated or underestimated) and cost-effective and is in line with the call, the Guideline for Applicant, the Regulation and the Financial Guide. Planned project expenditures are directly linked to project activities.	0 - 10		
3.4	Quality and feasibility of the Business Plan	The applicant has elaborated detailed and clear business plan presenting the roadmap for the firm from marketing, financial, and operational standpoints. The Business plan contains all mandatory and key parts and is based on realistic economic data and forecast. The Business plan is a good basis for achieving the planned goals and meaningful use of the financial investment in the form of a grant.	0 – 8		
3.5	Project co-financing	It is assumed that the applicant or partner(s) have sufficient and demonstrable financial resources to co-finance the project (financial statements, available information on the financial balance of the entities involved).	0 - 1		
3.6	Risk analysis and management	The applicant clearly identified the risks and proposed appropriate measures to eliminate, resp. mitigate them.	0 – 4		
3.7	SWOT analysed	SWOT analysis is well elaborated, complex and presents all important and key internal and external factors that affect the project.	0 - 6		

Annex 2 - Call for proposals BIN 02 - Selection Criteria (including evaluation sheet)

		Internal factors, manageable by applicant, project strengths and positive opportunities, outweigh external factors and threats, that could seriously jeopardize the project.			
3.8	Communication strategy	The applicant has developed communication strategy for informing and disseminating project results in accordance with the terms of the call.	0 – 1		
4.	IMPACT (max 10 points)				
4.1	The project contributes to building and strengthening the business environment in the selected area of support	The supported undertakings bring innovative competition in its environment and the selected area of support, contributes to the development of the knowledge economy and the creation of new jobs, has the potential to contribute to economic growth at least in the place of implementation, develops business partnerships in SR.	0 - 5		
4.2	The contribution of the project in terms of developing partnerships with the Donor states	The partner from the Donor state, i.e. Iceland, Liechtenstein or Norway, is involved in the project. His contribution is not only formal, there is a high precondition for cooperation even after the end of the project financing.	0 - 5		
5.	SUSTAINABILITY (max 10 points)				
5.1	The potential of the project in terms of achieved results, benefits for target groups and stakeholders in the long-term perspective	After the end of the financing, the project is able to generate income and the benefits achieved by its implementation will serve the target group and other stakeholders. The project also brings possible (secondary) positive benefits from a long term perspective.	0 - 5		
5.2	Sustainability of project solutions from a long-term perspective	The solutions provided by the project implementation are effective and sustainable and can be applied in the long term.	0 - 5		
Total score achieved:					

Annex 2 - Call for proposals BIN 02 - Selection Criteria (including evaluation sheet)

The maximum achievable total score is 100. The projects with less than 60 points (in average) will not be supported.

Recommend for funding

Not recommend for funding

General comment of the evaluator:

The total allocation for the Call for proposals to support innovations and business development amounts to EUR 5 415 882 and is divided into two areas:

- 1) Green Industry Innovation, in the amount of EUR 3 540 000 and
- 2) Welfare Technology and Ambient Assisted Living in the amount of EUR 1 875 882

In the case that the available amount is not used in one of the areas and the available amount of funds is insufficient in the other area, the Program Operator will seek to transfer funds to the area with insufficient available amount on the basis of the Selection Committee's recommendation. The Selection Committee may propose the transfer of funds from one area to another, if the submitted application should support qualitatively weaker projects in one area at the expense of qualitatively stronger projects in the other.
