Project outcomes	
+ <input checked="" type="checkbox"/> PA01 Outcome 1	Increased competitiveness of Slovak enterprises within the focus areas: Green Industry Innovation and Welfare Technology and Ambient Assisted Living technologies
+ <input type="checkbox"/> PA03 Outcome 2	Education and Employment potential enhanced in Slovakia in Green Industry Innovation and Welfare and Ambient Assisted Living technologies

Summary

Innovation of plastic waste recycling system:

The subject of the project is the application of innovative technology in order to streamline the recycling of PET bottles.

The need arises from the current insufficient capacity of the company's technological equipment, which cannot identify non-recyclable bottles and preparation of the environment and equipment of the Slovak Republic in accordance with EU law, which mandates that each produced PET bottle contains 25% recycled (crushed, washed and heat-treated) so-called «PET-recyclate».

contains 25% recycled (crushed, washed and neat treated) so-called rPE I regranulate.
